

Science Screen Report

2015 NEW RELEASES

SCIENCE SCREEN REPORT and SCIENCE SCREEN REPORT FOR KIDS SERIES

“*Science Screen Report Series*” and “*Science Screen Report for Kids Series*” programs are devoted to topics related to science, engineering, medicine, technology, conservation and the environment. **Created to fit curriculum standards**, these fascinating programs present the sometimes complex stories of today’s scientific and technological developments to schools in an easily understood, positive and objective manner appropriate to curriculum grade level.

The accompanying comprehensive Teacher’s Guides provide lesson strategies and include a program overview, topical background information, suggestions for critical thought, discussion and further study, a glossary, career possibilities, and related references and web sites to supplement each topic.
