STEPS4KIDS TO DRAW (BKPO242) - PRICE: \$34.99

This new drawing DVD uses video modeling to teach viewers how to draw over 40 items ranging from shapes to more difficult items like animals, a bike, and more! For beginners, the drawing DVD offers a "Shapes" section to help learn how to draw a circle, square, triangle, rhombus/diamond, heart and star! For more advanced artists, there are three other sections to show how to draw animals (such as those found in a home, in the water, at the zoo or on a farm), people (happy, sad and mad faces, clothed bodies, and profiles), and things (e.g. bike, car, flowers...). This drawing DVD is a must for those who love to draw or want to learn how! **90 minutes. Grade K-5. © 2012**

STEPS4KIDS TO MULTIPLY (BKPO214) - PRICE: \$34.99

This DVD teaches the multiplication of all numbers 0 through 12 using easy-to-follow demonstrations, easy to remember rhymes and sayings, and useful self-help strategies to help children remember select multiplication properties (e.g. zero, identity, commutative and associative properties). Each number track shows the times table for the selected number and discusses number patterns where applicable. Single digit times double digit multiplication steps are also introduced to help students develop an understanding of the multiplication process for more advanced math later. Equations are shown both vertically and horizontally to help strengthen rote memory skills. Equations are also demonstrated in formats that provide greater white space so that the DVD can be used with interactive white boards and other devices with DVD playing capabilities. A special section for teachers and parents is also included with ideas on how to help students with individual learning needs. **80 minutes. Grade K-3. © 2011**

STEPS4KIDS TO WRITE MODERN MANUSCRIPT (BKPO199) - PRICE: \$34.99

This instructional DVD will help any emerging writer learn how to write the slanted printing style (also known as "modern manuscript"/similar to D'Nealian or McDougal, Littell) using visual modeling and easy-to-follow verbal instructions. The "Introduction" track offers suggestions on how to help emerging writers learn the proper pencil grip and posture, how to help left handed writers, and how to recognize and correct common writing problems (such as extended thumbs or thumb wraps). The remaining two tracks teach the letters. Each letter is preceded by a colorful graphic that introduces the letter sound and two sight words to help develop literacy skills. After various letter selections, drawing breaks using the letter strokes taught help to make practicing fun! The Steps4Kids to Write Modern Manuscript DVD is an excellent low cost support for group/classroom use or for individual 1 on 1 use. DVDs can be used on computers, in conjunction with smart boards, TVs or any device that can play DVDs. **90 minutes. Grade K-2. © 2010**

STEPS4KIDS TO WRITE CURSIVE (BKPO197) - PRICE: \$29.99

This DVD offers approximately one hour of handwriting support to teach children the "rules" typically associated with cursive letter and word writing. Both upper and lowercase letters are demonstrated in a single DVD with verbal and visual instructions. Footage is shot from the student's perspective using "visual modeling" to help children better understand letter placement and letter strokes. Letters are not shown alphabetically but rather in letter groupings that build upon the basic letter stroke to help students avoid letter reversals and difficulties. Simple menus allow parents, teachers and students to select each letter directly to enable curriculum, class and individualized writing support. **68 minutes. Grade K-2. © 2008**

STEPS4KIDS TO WRITE THEIR ABCs (BKPO196) - PRICE: \$29.99

This multiple award winning instructional handwriting DVD is designed to help children aged 4 - 7 learn how to write both their upper and lowercase manuscript printing letters. Using visual modeling, footage shows children how to write the letters from their perspective to help them see exactly what they should be doing. Each letter demonstration is preceded by a colorful graphic that introduces the letter sound and two sight words to help children with reading skills. Drawing breaks are included after letter groupings showing children how to draw using the letters learned to reinforce the letter strokes. Co-designed by an occupational therapist and education advocate, the Steps4Kids to Write Their ABCs DVD offers approximately one hour of support and includes tips to help with proper pencil grip, posture, letter placement on lined paper and the avoidance of letter reversals. **60 minutes. Grade PreK-2. © 2009**
